DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

2. Claims 39-40, 53-54, 67-68, 81-82, 95 and 96 are rejected under 35 U.S.C. 102(b) as being anticipated by applicant's admission of prior art (see Fig. 1)

The detection arrangement is considered as the person (20) in Fig. 1; portable device is considered as person (26) and the communication arrangement is considered as person (20) talking to person (26) using walkie-talkies, which applicant admits is conventional, to relate drilling parameters.

3. Claims 39-40, 53-54, 67-68, 81-82, 95 and 96 are rejected under 35 U.S.C. 102(e) as being anticipated by Archambeault et al. (US 6102136).

The detection arrangement is considered as the person (36) in Fig. 1; portable device is considered as person (38) and the communication arrangement is considered as person (36) talking to person (38) relating a drilling parameter.

Response to Arguments

4. Applicant's arguments with respect to claims 39-96 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

5. Claims 41-52, 55-66, 69-80, 83-94, 97-104 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
